

National Bobwhite Technical Committee Meeting

August 9-12, 2011
Tallahassee, FL

Please mark your calendars for the 2011 meeting of the National Bobwhite Technical Committee (NBTC). The meeting will be held August 9-12, 2011 at the Doubletree Hotel in downtown Tallahassee, FL. The meeting will begin on the evening of August 9th with a welcome reception and conclude on August 12th with a field trip into the Red Hills hosted by Tall Timbers Research Station and Land Conservancy. The Red Hills region of Florida and Georgia comprise over 400,000 acres of some of the finest examples of old-growth pine savannah woodlands. In addition, the region is renowned for its land stewardship and resulting wild bobwhite populations. A registration form and more detailed meeting information will be provided in the coming months. We look forward to visiting with you in Florida!

Sincerely,

Chuck McKelvy, Coordinator
Small Game Management Program
Florida Fish & Wildlife Conservation Comm.
